

RE Docket # 98N-1038

please be aware there are many people here opposed to irradiation of food.

The long term effects are unknown. Far

better to clean up ³²⁹ ~~polluting~~ ^{PR 20} ~~the water~~

If irradiation is allowed - such food

must be labeled accurately - no "electronic"

or "cold pasteurization." This is misleading

and dishonest. Irradiated food must be

labeled clearly as irradiated. Jan 2000
